# ADVOCACY

We advocate by empowering educators, parents, **students**, policymakers, and others to take action that supports gifted learners.

# ● EDUCATION

We educate by guiding the creation of evidence-based systems to identify gifted individuals, and offering direction for tailored programs that meet cognitive and affective needs.

# ● NETWORKING

We network by creating more opportunities for everyone involved to **work together** to grow the talents and potential of gifted individuals **at school and at home**.

## How does ITAG advocate?

- ITAG has a proactive Legislative Committee
- Ongoing reliance on expertise at the Iowa Department of Education
- Regular monitoring of legislative activity when the Iowa Legislature is in session
- Attend Affiliates Meetings in Washington, DC, to include visits to the Iowa Legislative Delegation; advocate for pertinent legislation related to gifted education and research

## How does ITAG educate?

- Best-practice, research-based information
- Conference and workshops with keynotes and breakout sessions that are informative, research-based, and current.
- Professional Voices and Speaker's Bureau availability for local professional development
- Mentor Mentee Program for new teachers of the gifted
- Book studies
